

# Group Activity: The Web of Interdependence

1. Form a team (3-5 people)
2. Choose one object, meal or thing that appears in your daily life.
3. Draw this thing at the centre of your paper.
4. Now draw the things that were needed for this thing to exist.
5. And for each thing you draw, draw what was needed for that thing.

Make sure you clearly link the things that are caused by each other. Consider using arrows to show the causation.
